EXPERIENCE

CIBC Capital Markets

Toronto, Canada

Associate, Investment Banking | Energy, Infrastructure & Transition

Aug 2021 – Present

- Facilitated generation of \$6.5M revenue by developing 9 financial models over 6 M&A / joint venture structuring transactions, 2 debt financing transactions, and 1 provincial energy storage procurement process (Excel / VBA)
- Enhanced client and lender understanding of product features by leading 15+ financial model walkthrough sessions
- Led and organized weekly check-in meetings with clients via creation of agendas covering weekly target milestones
- Coordinated and incorporated feedback from 4-6 financial model stakeholders per deal (clients, M&A buyers / sellers, lenders, legal advisors, tax advisors, swap desks, market consultants, independent engineers, rating agencies)
- Ensured timely launch of financial models by creating Gantt charts capturing iterative timeline planning with clients
- Successfully sold 4 assets with combined value of ~\$1.0B and optimized ~\$1.6B of debt by analyzing 1,500+ financial model scenarios and summarizing key metrics in 60+ presentations to clients (aggregate across 5 deals)

Canada Pension Plan Investments

Toronto, Canada

Senior Intern Analyst | Liquidity Risk

May 2019 – Aug 2019

- Accelerated team's reporting cycle by 5 days by developing automated data querying and analysis tool (SQL, VBA)
- Validated key components of CPP's liquidity risk framework by researching international liquidity methodology standards and stress testing public equity portion of CPP's C\$400B portfolio via Bloomberg liquidity functionalities

Statistics Canada

Ottawa, Canada

Application Developer Co-op

Sep 2018 – Apr 2019

- Increased efficiency and reduced cost of collecting Consumer Price Index data by developing alternative data collection system as web application with team of 5 (C#, HTML / CSS, JavaScript / jQuery, SQL)
- Ensured consistent performance and application integrity by coding critical components of web application, including bilingualism / localization framework to comply with national language regulations, and testing framework

EDUCATION

University of British Columbia

Vancouver, Canada

Bachelor of Science in Computer Science, with Distinction | GPA: 3.9 / 4.0

Sep 2016 - May 2021

- Undergraduate Teaching Assistant for 5 terms across 3 courses: CPSC 110 (Computation, Programs, and Programming), CPSC 210 (Software Construction), CPSC 221 (Basic Algorithms and Data Structures)
- Student clubs: Flight Software Engineer at UBC Rocket (engineering design team for 10,000-ft & 30,000-ft altitude rockets) | Sponsorship Coordinator at nwPlus (hackathon organization club)

PERSONAL PROJECT

Sudoku Buddy

Toronto, Canada

sudoku.iandelr.io | Custom sudoku assistance web application for my mother

Jan 2024

- Enabled user to identify and correct mistakes in sudoku puzzle without having to erase all progress
- Customized product by iterating on feature set with user (support for arrow key traversal on computer, mobile support)
- Supported accessibility for users with color vision deficiency by using typographical emphasis to differentiate different number types (original puzzle inputs with no emphasis, user inputs in *italic*, erroneous user inputs in **bold**)
- Built web application from scratch using HTML / CSS / JS; implemented backtracking algorithm for puzzle solving
